Time Coded to South Dayton Dump 8-15-11 to 8-14-12.xlsx

Leslie,

Attached is a spreadsheet detailing our time spent on the South Dayton Dump and Landfill project between August 15, 2011 and August 14, 2012.

As far as I know, we do not generate progress reports for the site.

Let me know if you need anything else.

Laura Marshall

The time period is August 15, 2011 to August 14, 2012. The RPs also specifically asked for progress reports, if you submit them for SDDL. Thanks!

Leslie,

Could you tell me what time period you need the cost documentation for? The last spreadsheet that I sent Karen in November 2011 was for the period 8-15-2009 to 8-14-2010. Once we have the dates we can generate a spreadsheet for you.

Subject: cancelled calls etc.

Hi Laura,

I was out yesterday because I had to take my cat to the vet, so I'm sorry I didn't get respond to your emails. I cancelled the regulators call in my calendar, and I thought it would send out a notice like our old system did but apparently not! If we have something to discuss, we can pick up next week.

BTW – do you have copies of the 2011 and 2012 progress reports that OEPA would have sent to EPA for work under the cooperative agreement? I can't find any in the files I got from Karen, and the PRPs have made their annual request for documentation of oversight costs. If you could email those to me, that would be great.

Happy weekend!
